

**Miller, Ronald B.** Ethical issues in stem cell research, therapy, and public policy. *In: Monroe, Kristen Renwick; Miller, Ronald B.; Tobis, Jerome, eds. Fundamentals of the Stem Cell Debate: the Scientific, Religious, Ethical, and Political Issues.* Berkeley: University of California Press, 2008: 146-196. 122 refs. 3 fn. NRCBL: 18.7; 15.1; 18.5.4.

Keywords: \*embryo research; \*embryonic stem cells; \*public policy; \*stem cell transplantation; adult stem cells; advisory committees; beginning of life; cloning; consensus; cultural pluralism; embryo disposition; embryos; government financing; government regulation; guidelines; international aspects; legal aspects; moral status; nuclear transfer techniques; personhood; politics; religious ethics; research support; researchers; review committees; scientific misconduct; secularism; self regulation; Proposed Keywords: blastocysts; embryonic development; Keyword Identifiers: \*United States; National Institutes of Health; President's Council on Bioethics

**Moreno, Jonathan D.; Berger, Sam; Rogers, Alex.** Divided we fail: the need for national stem cell funding. An analysis of state and federal funding for stem cell research. Washington, DC: Center for American Progress 2007 April; 11 p. [Online]. Accessed: [http://www.americanprogress.org/issues/2007/04/pdf/stem\\_cell\\_report.pdf](http://www.americanprogress.org/issues/2007/04/pdf/stem_cell_report.pdf) [2008 November 21]. 21 fn. NRCBL: 18.7; 15.1; 9.3.1; 5.3; 18.5.4. SC: em.

Keywords: \*embryonic stem cells; \*federal government; \*government financing; \*public policy; \*research support; \*state government; \*stem cells; biomedical research; cell lines; embryo research; government regulation; legislation; statistics; Keyword Identifiers: \*United States; National Institutes of Health

**Morris, John F.** Stem cells, cloning, and the human person. *In: Morris, John F., ed. Medicine, Health Care, and Ethics: Catholic Voices.* Washington, DC: Catholic University of America Press, 2007: 252-298. 110 fn. NRCBL: 18.7; 15.1; 14.5; 18.5.4. SC: an.

Keywords: \*cloning; \*embryo research; \*embryonic stem cells; \*moral policy; adult stem cells; common good; deontological ethics; embryos; ethical analysis; human dignity; methods; moral obligations; natural law; personhood; pluripotent stem cells; regulation; stem cell transplantation; treatment outcome; utilitarianism; Proposed Keywords: hyperbole

**Nelis, Annemiek; de Vries, Gerard; Hagedijk, Rob.** Patients as public in ethics debates: interpreting the role of patients' organisations in democracy. *In: Atkinson, Paul; Glasner, Paul; Greenslade, Helen, eds. New Genetics, New Identities.* London; New York: Routledge, 2007: 28-43. 26 refs. NRCBL: 18.7; 18.5.4; 7.1; 15.1.

Keywords: \*accountability; \*democracy; \*embryo research; \*embryonic stem cells; \*patient advocacy; \*politics; \*public participation; cloning; cultural pluralism; dissent; genetic disorders; genetic research; patient participation; public policy; science; Proposed Keywords: \*patient organizations; Keyword Identifiers: \*Great Britain

**Nickel, Philip J.** Ethical issues in human embryonic stem cell research. *In: Monroe, Kristen Renwick; Miller, Ronald B.; Tobis, Jerome, eds. Fundamentals of the Stem Cell Debate: the Scientific, Religious, Ethical, and Political Is-*

*sues.* Berkeley: University of California Press, 2008: 62-78. 20 fn. NRCBL: 18.7; 15.1; 18.5.4. SC: an.

Keywords: \*embryo research; \*embryonic stem cells; \*embryos; \*moral policy; \*moral status; \*policy making; \*public policy; beginning of life; cultural pluralism; decision making; dissent; embryo disposition; government financing; government regulation; in vitro fertilization; legal aspects; ovum donors; research support; risks and benefits; species specificity; value of life; Proposed Keywords: blastocysts; Keyword Identifiers: United States

**Nielsen, Torben Hviid.** The politics of bioethics: the case of human embryonic stem cells. *In: Gaskell, George; Bauer, Martin W., eds. Genomics and Society: Legal, Ethical, and Social Dimensions.* London; Sterling, VA: Earthscan, 2006: 131-149. 61 refs. 11 fn. NRCBL: 18.7; 15.1; 18.5.4.

Keywords: \*embryonic stem cells; \*politics; adult stem cells; cloning; embryo research; embryos; federal government; government financing; hyperbole; international aspects; journalism; mass media; moral status; patents; pluripotent stem cells; public policy; rhetoric; regenerative medicine; research support; Keyword Identifiers: United States

**Norsigian, Judy.** Stem cell research and embryo cloning: involving laypersons in the public debates. *New England Law Review* 2005 Spring; 39(3): 527-534. 26 fn. NRCBL: 18.7; 9.5.5; 15.1; 14.5; 18.5.4. SC: le.

Keywords: \*cloning; \*embryo research; \*embryonic stem cells; \*nuclear transfer techniques; \*ovum donors; \*political activity; \*public participation; \*public policy; \*stem cells; biotechnology; embryos; eugenics; government financing; legislation; patents; research support; risk; state government; vulnerable populations; women; Keyword Identifiers: \*Proposition 71 (California); California

**O'Connor, Sean M.** Intellectual property rights and stem cell research: who owns the medical breakthroughs? *New England Law Review* 2005 Spring; 39(3): 665-714. 173 fn. NRCBL: 18.7; 15.1; 5.3; 15.8. SC: le.

Keywords: \*federal government; \*government financing; \*intellectual property; \*legal aspects; \*patents; \*research support; \*stem cells; adult stem cells; biomedical research; embryo research; embryonic stem cells; hyperbole; legislation; property rights; state government; technology transfer; Keyword Identifiers: \*United States; Bayh-Dole Act 1980

**O'Rourke, P. Pearl; Abelman, Melinda; Heffernan, Kate Gallin.** Centralized banks for human embryonic stem cells: a worthwhile challenge. *Cell Stem Cell* 2008 April 10; 2(4): 307-312. 17 refs. NRCBL: 18.7; 15.1; 1.3.12; 18.5.4; 21.1.

Keywords: \*biological specimen banks; \*cell lines; \*embryonic stem cells; \*organization and administration; \*standards; confidentiality; consent forms; donors; economics; embryo research; government regulation; guidelines; informed consent; international aspects; registries

**Otlowski, Margaret F.A.** Australian developments with regard to regulation of embryonic stem cell research and therapeutic human cloning. *Journal of International Biotechnology Law* 2008; 5(1): 37-44. 32 fn. NRCBL: 18.7; 15.1; 18.5.4; 14.5. SC: le.
